County of Sacramento

Memorandum

Date: November 02, 2026

To: Sacramento County Behavioral Health Staff

From: Emmanuel Amanfor, MPH
Division Manager, Continuous Quality Improvement

Subject: Notice of Working-Title Name Change

Sacramento County's Division of Behavioral Health believes good care is shown by client progress toward their goals. Using performance-based contracts, we aim to raise care standards, ensure accountability, and promote transparency. This helps providers and county teams work together, track outcomes in real time, and adapt services to meet each person's needs. Our focus is on client progress, driving positive change for recovery, resilience, and well-being.

As part of this initiative and to align with the intent of this new approach, we are updating the working title name of "Contract Monitor" for Mental Health Program Coordinators whose primary assignments are to oversee contracts to "Contract Performance Monitor" (CPM), effective November 2nd, 2026.

This is a working-title name change only for the Mental Health Program Coordinator (MHPC) classification with oversight of Behavioral Health contracts. The position's duties, responsibilities, and minimum qualifications for Mental Health Program Coordinator will remain unchanged.

Documentation, including policies and procedures will be updated to reflect this change.
